The finality stated in the Office Action mailed 01-26-05, has been withdrawn.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 8 and 9, are rejected under 35 U.S.C. 102(b) as being anticipated by Mehta et al (U.S. Patent 6,261,944).

Mehta et al discloses forming an oxide passivation layer 58 to cover an electronic device 49 (Figure 2, and Column 4, lines 27-34, and 50-54), and providing an ion beam to perform surface on the passivation layer, wherein the ion beam is provided by ion implantation (Figure 2, and Column 5, lines 10-21).

Claims 12-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1, 2, 5-7, are allowed.
